

RIDGEWOOD HIGH SCHOOL

627 East Ridgewood Ave., Ridgewood, New Jersey 07450 • 201.670.2800 • 201.444.7008 (f)

Dear Parents, Guardians, and Students,

Ridgewood Public Schools would like to provide our students with the option to explore summer learning opportunities in mathematics. Practicing mathematics during the summer months will help students to maintain core skills and foundational understandings that were introduced over the past school year. Your child has used the IXL math program to reinforce the school curriculum this year, and your child will continue to have access to the online program over the summer. In an effort to provide your child with opportunities to practice the math skills and concepts taught during school this year, the district has put together a list of suggested IXL skills your child may practice in preparation for the 2023-2024 school year. Please use the link below to review the list of suggested IXL skills.

[2023 Suggested Summer Math](#)

Another exciting way to encourage learning over the summer is through IXL's Study in the Sun contest! The contest will run from June 12th to August 6th, and the winner is determined based on the student who answers the most IXL questions throughout the contest. IXL will share leaderboards with the top 20 students in each grade range on both June 30th and July 21st. If your child is interested in participating in the contest all they need to do is begin practicing on June 12th! Please reach out to your child's mathematics teacher if you have any questions regarding the contest.

Sincerely,

Ashley Onembo
