At REACH, we believe that quality early childhood education is the cornerstone of development and the foundation for future success in schooling and beyond.

Our innovative curriculum has been developed by Ridgewood Public Schools, and is designed for optimal development of the "whole" child by providing educational experiences in all learning domains. Our integrated program offers a multi-sensory approach to instruction, focusing on early social/emotional learning, communication, and academic readiness to build a strong learning foundation for students to take with them into elementary school.

REACH students receive the benefits of:

- ✓ **State certified teaching staff**
- ✓ **Low student-to-staff ratio**, ensuring appropriate developmental attention for each student.
- ✓ **Kindergarten preparatory, district-approved curriculum** - and specials including Physical Education, music, and STEAM (science, technology, engineering, art, and mathematics)
- ✓ **Full-day instruction, 8:45 am-2:00 pm** (before-care and after-care is available for a fee by a district-approved third party.)

Full-day; Pre-K3; and Pre-K4

REACH Pre-K3 (3 years old by 9/1/24) or REACH Pre-K4 (4 years old by 10/1/24) offers a multi-sensory, play-based learning environment that encourages exploration and discovery through teacher-guided centers. Our curriculum is based on units of study that are delivered as structured play activities to develop logical thinking and language skills to promote kindergarten readiness. Stimulating multi-sensory classroom centers, investigate letters, numbers/math concepts, and pre-reading skills for an integrated and fun approach to learning.

Full-day Transitional Kindergarten (TK)

REACH 5TK has been designed for the young 5 year old (by 12/31/24) who may benefit from an extra year before entering kindergarten. Our program has been developed to provide a bridge from preschool to kindergarten and is aligned with Ridgewood Public School's kindergarten curriculum and standards. The program uses multi-sensory learning concepts to reinforce key academic areas such as, reading readiness, language, literacy and math/number concepts.
