

Dear Parents and Guardians,

This report offers a snapshot of what parents said about your school and the district in our first annual survey, which was conducted last June. The Board of Education hopes this information will contribute to a dialogue among all members of the school community, and will become one of the important resources we can use to make the school the best it can be.

Thank you to all the parents who completed the survey last June. We look forward to your feedback, as we endeavor to make this process of reflection a regular activity among the Ridgewood Public Schools.

How to read this report.

The data in this report reflects survey results for your school only. For each survey question, results are displayed as bar graphs. At the end of the report you will find summaries of the comments that were received for each section.

Please note that not all parents participated in the survey. Your school's participation rate is noted below, along with the overall District participation rate.

How was the survey conducted?

The survey was conducted via email during the week of June 10-17, 2010. Email invitations with private links were sent to all parent/guardian email addresses on file with the District. Survey respondents participated on a secure survey website, and only one response was allowed for each email address.

Numerical survey data was compiled, and charts were created, by members of the District IT Department. A committee of parents, administrators and school board members reviewed the data and summarized the comments for this report. The Board's Communications

Committee presented the report to the full Board of Education on December 20, 2010.

What were the results for the District as a whole?

A total of 2573 parents or guardians filled out a survey, representing a 38% participation rate. [Click here](#) for a District summary of the survey data.

How many parents participated in your school's survey?

	# Students	# Emails Available	# Participants	Participation Rate 09-10
Hawes	421	417	197	47%
District	5618	6697	2573	38%

How can you use these survey results?

You and your school community can use the results of this survey to start conversations about your school, especially in terms of teaching and instruction, extracurricular activities, facilities, communications, parent engagement, administration and more. Parents are encouraged to talk with each other, your child's teacher(s), school administrators and/or your Home & School Association regarding any specific issues, ideas or suggestions that arise from the survey results.

Complete survey results have been provided to your school's principal, as well as central administration at the Ed Center and members of the Board of Education.
